

SMART GATEWAY  
USER GUIDE

ZIGBEE

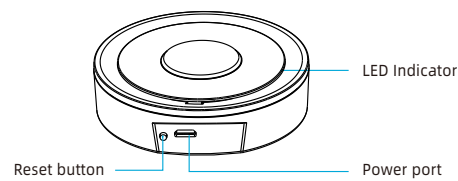

Product Configuration

With Ethernet Port

No Ethernet Port

Feature & Specifications

Support Zigbee 3.0 protocol to add Zigbee subsystem  
App remote control  
USB power: 5V/1A  
Working temperature: 0-55°C  
Working humidity: 10%-90%RU  
Comprehensive number of work: 5,000  
Wireless frequency: 2.4GHz  
Communication protocol: Zigbee 3.0  
Network protocol: Zigbee IEEE 802.15.4  
Frequency band: 2.4 ~ 2.485GHz  
Maximum output power: 19dBm  
Network topology: support star, tree, mesh network  
Firmware upgrade: OTA Support  
WAN:RJ45, 10 / 100M Ethernet ports(Wired gateway only)  
Size: 78mm x 78mm x 25mm

LED State

| Device Status | LED State                       |
|---------------|---------------------------------|
| Pairing mode  | Indicator flashes 2times/second |
| Reset         | Long press for 6s               |

**Note:**  
1. Please reset the device before you add it;  
2. No quantity limits to add the device.  
3. The phone and gateway have to connect network with same router before adding the device;

Network Settings

1. Power on the gateway;
2. Confirm configuration indicator on;
3. Ensure your phone connect with home 2.4GHz frequency band router, meanwhile the phone and gateway are in same LAN;

Get Started

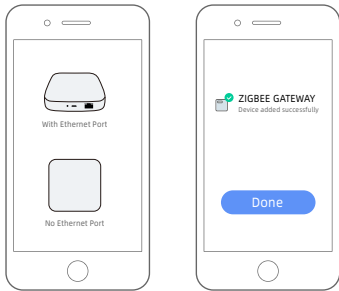

- 1. Download APP**  
Download the "Smart life" app from APP Store or Google Play to your mobile.

- 2. Register and Login**  
A.Launch the "Smart life" app.  
B.To register,enter your mobile phone number or email address,create a password ,then login to the app.  
C.Login if you have an account already.
